SUMMARY:

Proficient in both front-end and back-end technologies, I possess a keen eye for design and functionality. With a commitment to continuous learning, I eagerly apply theoretical knowledge to practical projects, contributing fresh perspectives and innovative solutions. Equipped with strong soft skills, I am poised to make meaningful contributions to projects and collaborate effectively with peers. Seeking opportunities to further expand my skills and make a positive impact in the world of web development.

- ENGLISH
- HINDI
- PUNJABI

PROJECTS:

LAB TESTS AND HEALTHCARE WEBSITE

FEBURARY – APRIL 2024

Domain: Website | Programming Languages/ Technologies Used: HTML, CSS, Javascript, Node.js

- It asks user to give the details of illness like symptoms, and accordingly give relevant remedies, lines of treatment to be followed along with lab tests required for going ahead with the treatment.
- It uses HTML, CSS and Javascript for the front-end development and Node.js along with Express to handle the backend. MongoDB is used to store the data into the database.

MOVIE TICKET BOOKING SYSTEM

FEBURARY – APRIL 2023

Domain: Application | Programming Languages: C Language

- The movie ticket booking system is a software application designed to simplify the process of reserving and purchasing movie tickets.
- It allows users to browse through a list of movies, view showtimes, select their preferred seats, and make secure online payments.

RESTAURANT WEBSITE

AUGUST – SEPTEMBER 2022

Domain: Front-end Website | Programming Languages/ Technologies Used: HTML, CSS, JavaScript

- It serves as an online representation of the restaurant, allowing users to explore the menu, order food, and get information about the restaurant.
- It uses HTML, CSS and bootstrap for the front-end development of the website.
